Major in Science; GPA: Upper Credit

Courses: English, Biology, Physics, Data Processing, Economics, Geography, Chemistry, Mathematics

### OBJECTIVE

Hello! My name is Olasunkanmi Usman, and I'm a dedicated software developer with two years of professional experience. I appreciate the creative process of designing effective and user-friendly software solutions and thrive on tackling challenging challenges. I have worked on a range of projects over the course of my career, including websites, web applications, and major enterprise systems. JavaScript, ReactJS, nodeJS, and ExpressJS are just a few of the programming languages I have a strong foundation in, and I'm always eager to learn and adapt to new technologies and frameworks. My areas of expertise are front-end development, back-end development, database administration, and software architecture. I believe in developing well-documented, clean, maintainable code and have a thorough grasp of agile and MVC approaches. I am actively searching for opportunities to work in a company with a large user base to practically experience the benefits and caveats of the technologies that enable such companies to operate efficiently.

### SKILLS

</> Front end	🔧 Backend	🔧 Others ^	🗣 Language
React/Redux	Node js	Unit Testing	English
Javascript	Express js	C++ Programming	Yoruba
JQuery	Firebase	C sharp Programming	
Webpack/Gulp/Grunt	MongoDB	Desktop Publishing	
HTML/CSS/SASS/LESS	Mongoose	Problem Solving Skills	
Bootstrap 5	Knex.js	Python	
Tailwind	MySQL	Pascal	
Beginner             Average             Pro             Master             Contributor
