## PROFILE

Full Stack Engineer with 6+ years building scalable web apps across React/Next.js, Node.js/NestJS and Laravel. Delivered production platforms including an e-commerce marketplace and a fintech payments system. Currently at NLPC PFA, focused on performance, clean architecture and UX.

## SKILLS

React.js, Next.js, TypeScript, React Native  
Node.js, NestJS, Express, Laravel, PHP  
REST APIs, GraphQL  
MongoDB, PostgreSQL, MySQL, Redis  
AWS (EC2, Lambda, Amplify), Docker, CI/CD  
Jest, Git/GitHub, Tailwind CSS

## EDUCATION

B.Tech, Computer Science & Software Engineering  
Ladoke Akintola University of Technology (LAUTECH)  
2018 – 2023 · Second Class Upper

## EXPERIENCE

### Frontend Developer — NLPC Pension Fund Administrators

Dec 2023 – Present

- Build and maintain reusable React component libraries, improving development velocity across teams.
- Define scalable architecture aligned with enterprise design standards; optimize with code-splitting and lazy loading.

### Full Stack Engineer — SMAHILE HUB

Oct 2025 – Feb 2026

- Shipped full-stack features with React on the frontend and NestJS/Node.js on the backend.
- Built RESTful APIs on PostgreSQL and implemented Laravel microservices to modernize legacy PHP systems.

### Frontend Developer — D1stclassheritage

Nov 2024 – Aug 2025

- Led frontend development of customer-facing interfaces using React and TypeScript.
- Set frontend coding standards and partnered with backend engineers to improve data-rendering performance.

### Full Stack Developer — CYBUD

Jun 2023 – Nov 2023

- Built scalable back-end systems and REST APIs (React, Node.js, PostgreSQL) serving thousands of concurrent users.
- Conducted structured code reviews, enforcing best practices and reducing production bug rates.

### Full Stack Engineer — Whites Technology

May 2023 – Jul 2023

- Managed the end-to-end software development lifecycle, from design through deployment and maintenance.
- Provided actionable development progress reports to management, supporting informed decision-making.

### Frontend Developer — Comfort Developers & IT Solution

May 2020 – Jan 2021

- Built responsive web interfaces and reusable component libraries for long-term maintainability.
- Maintained brand consistency across digital touchpoints, supporting client identity guidelines.
